- The TOTEM K electronic supply kits with GK-7 own consumption controller are suitable for the diesel supply, measurement and control for own consumption vehicles.
- The GK-7 controller allows the supply only to authorized personnel and memorizes all the services that the users and/or the vehicles do. The dispenser has connection to PC with software for consulting and managing the data of the users, the vehicles and the done supplies.

It is composed of:

CHASSIS

- Column for its direct fixation to the ground without bases or additional accessories
- Made of steel
- Special interior and exterior treatment against corrosion
- Brilliant expoxid paint
- Weatherproof

PUMP

- **IRON-75** 230 VAC self-suction pump with self-adjusting blades

PULSER

- **MGI-110**

CONTROLLER

- **GK-7** own consumption

NOZZLE

- **PA-80** automatic (*swivel included*)

HOSE

- 4 m Ø25 mm delivery diesel hose double layer, with adapters in both ends

Size and weight (approx.):

- Dim.: 385x435x1,500 mm (length x width x height)
- Weight: 50 kg

OPTIONAL ACCESSORIES

- GK-7 identification key (10-unit pack)	251201002
- Communication kit via memory key	257120000
- Communication kit via USB cable	257160000
- Communication kit via Ethernet	257130000
- Communication kit via GSM/MODEM	257140000
- Communication kit via DieselPlus memory key	257500000
- Communication kit via Zigbee-USB (wireless)	257180000
- Communication kit via Zigbee-Ethernet (wireless)	257190000
- FG-100 microfilter kit (TOTEM 50/75/100 indoors) 	27231
